according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 11-Jan-2018

Print date: 11-Jan-2018

Version: 3

Page 1/9

## Potassium sulphate

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Trade name/designation:

Potassium sulphate

Other means of identification:

Dipotassium sulfate

**CAS No.:**

7778-80-5

**REACH No.:**

01-2119489441-34-0045

**EC No.:**

231-915-5

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture:

Fertilizer

For reasons of clarity and comprehensibility the following section contains only the most important identified uses. For additional uses please consult the manufacturer or the the trading company.

Relevant identified uses:

##### Sector of uses [SU]

**SU 3:** Industrial uses: Uses of substances as such or in preparations at industrial sites

**SU 8:** Manufacture of bulk, large scale chemicals (including petroleum products)

**SU 21:** Consumer uses

**SU 22:** Professional uses: Public domain (administration, education, entertainment, services, craftsmen)

##### Product Categories [PC]

**PC 0:** Other

**PC 12:** Fertilizers

**PC 27:** Plant protection products

##### Process categories [PROC]

**PROC 1:** Chemical production or refinery in closed process without likelihood of exposure or processes with equivalent containment conditions

**PROC 3:** Manufacture or formulation in the chemical industry in closed batch processes with occasional controlled exposure or processes with equivalent containment condition

**PROC 4:** Chemical production where opportunity for exposure arises

**PROC 5:** Mixing or blending in batch processes

**PROC 6:** Calendering operations

**PROC 7:** Industrial spraying

**PROC 8a:** Transfer of substance or mixture (charging and discharging) at non-dedicated facilities

**PROC 8b:** Transfer of substance or mixture (charging and discharging) at dedicated facilities

**PROC 9:** Transfer of substance or mixture into small containers (dedicated filling line, including weighing)

**PROC 10:** Roller application or brushing

**PROC 11:** Non industrial spraying

**PROC 13:** Treatment of articles by dipping and pouring

**PROC 14:** Tableting, compression, extrusion, pelletisation, granulation

**PROC 15:** Use as laboratory reagent

**PROC 21:** Low energy manipulation of substances bound in materials and/or articles

**PROC 24:** High (mechanical) energy work-up of substances bound in/on materials and/or articles

**PROC 26:** Handling of solid inorganic substances at ambient temperature

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

**Revision date:** 11-Jan-2018

**Print date:** 11-Jan-2018

**Version:** 3

Page 2/9

## Potassium sulphate

### Environmental release categories [ERC]

- ERC 1:** Manufacture of the substance
- ERC 2:** Formulation into mixture (mixtures)
- ERC 3:** Formulation in materials
- ERC 4:** Use of non-reactive processing aid at industrial site (no inclusion into or onto article)
- ERC 5:** Use at industrial site leading to inclusion into/onto article
- ERC 6a:** Use of intermediate
- ERC 8a:** Widespread use of non-reactive processing aid (no inclusion into or onto article, indoor)
- ERC 8b:** Widespread use of reactive processing aid (no inclusion into or onto article, indoor)
- ERC 8c:** Widespread use leading to inclusion into/onto article (indoor)
- ERC 8d:** Widespread use of non-reactive processing aid (no inclusion into or onto article, outdoor)
- ERC 8e:** Widespread use of reactive processing aid (no inclusion into or onto article, outdoor)
- ERC 10b:** Widespread use of articles with high or intended release (outdoor)
- ERC 11b:** Widespread use of articles with high or intended release (indoor)
- ERC 12b:** Processing of articles at industrial sites with high release

### 1.3. Details of the supplier of the safety data sheet

**Supplier (manufacturer/importer/only representative/downstream user/distributor):**

**German Biofuels GmbH**

Am Hünengrab 9

16928 Pritzwalk/Germany

**Telephone:** +49 33986 5050

**Telefax:** +49 33986 50599

**E-mail:** qm@gbfgmbh.de

### 1.4. Emergency telephone number

Produktion/Production, 24h: +49 172 56 82 831, +49 33986 50582 (Only available during office hours.)

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

**Classification according to Regulation (EC) No 1272/2008 [CLP]:**

The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

### 2.2. Label elements

**Labelling according to Regulation (EC) No. 1272/2008 [CLP]**

**Hazard pictograms:**

**GHS07**

Exclamation mark

**Signal word:** Warning

#### hazard statements for health hazards

H319 Causes serious eye irritation.

#### Precautionary statements Prevention

P280 Wear protective gloves/protective clothing/eye protection/face protection.

#### Precautionary statements Response

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/attention.

Full text of H- and EUH-phrases: see section 16.

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Following inhalation:

If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

In case of irregular breathing or respiratory arrest provide artificial respiration.

In case of breathing difficulties administer oxygen. Consult physician immediately.

No mouth-to-mouth or mouth-to-nose resuscitation. Use Ambu bag or ventilator.

#### In case of skin contact:

After contact with skin, wash immediately with plenty of water and soap.

#### After eye contact:

In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Subsequently consult an ophthalmologist.

#### After ingestion:

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Rinse mouth immediately and drink plenty of water.

Induce vomiting when the affected person is not unconscious.

Never give anything by mouth to an unconscious person or a person with cramps.

### 4.2. Most important symptoms and effects, both acute and delayed

Acute effects: Causes serious eye irritation.

Delayed effects: --

### 4.3. Indication of any immediate medical attention and special treatment needed

No data available

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

#### Suitable extinguishing media:

D - powder Carbon dioxide (CO<sub>2</sub>) Foam Water mist

#### Unsuitable extinguishing media:

--

### 5.2. Special hazards arising from the substance or mixture

In case of fire may be liberated: Sulphur dioxide (SO<sub>2</sub>)

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

**Revision date:** 11-Jan-2018

**Print date:** 11-Jan-2018

**Version:** 3

Page 4/9

## Potassium sulphate

### 5.3. Advice for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.  
In case of fire: Use acid-proof equipment only.

### 5.4. Additional information

No data available

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

#### 6.1.1. For non-emergency personnel

##### Personal precautions:

Avoid dust formation.  
Avoid contact with skin, eyes and clothes.  
Wear personal protection equipment.

##### Protective equipment:

Wear breathing apparatus if exposed to vapours/dusts/aerosols.

#### 6.1.2. For emergency responders

##### Personal protection equipment:

In case of fire: Wear self-contained breathing apparatus.

### 6.2. Environmental precautions

Do not allow to enter into surface water or drains.  
Knock down dust with water spray jet.

### 6.3. Methods and material for containment and cleaning up

##### For cleaning up:

Collect in closed containers for disposal.  
Wash with plenty of water.  
To clean the floor and all objects contaminated by this material, use plenty of water.  
IF ON CLOTHING: rinse immediately contaminated clothing and skin with plenty of water before removing clothes.

### 6.4. Reference to other sections

=> 8. Personal protection equipment  
=> 13. Waste treatment methods

### 6.5. Additional information

No data available

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

#### Protective measures

##### Advices on safe handling:

Provide adequate ventilation as well as local exhaustion at critical locations. Use suitable protective equipment. Avoid contact with skin, eyes and clothes. Avoid dust formation.

When using do not eat, drink or smoke. Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.

##### Measures to prevent aerosol and dust generation:

Carry out filling operations only at stations with exhaust ventilation facilities.

### 7.2. Conditions for safe storage, including any incompatibilities

#### Technical measures and storage conditions:

Store in a cool dry place.

#### Requirements for storage rooms and vessels:

Keep/Store only in original container. Keep container tightly closed.

**Storage class:** 13 - Non-combustible solids that cannot be assigned to any of the above storage classes

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 11-Jan-2018

Print date: 11-Jan-2018

Version: 3

Page 5/9

## Potassium sulphate

### 7.3. Specific end use(s)

No data available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No data available

### 8.2. Exposure controls

#### 8.2.1. Appropriate engineering controls

Provide adequate ventilation as well as local exhaust at critical locations.

#### 8.2.2. Personal protection equipment

#### Eye/face protection:

Suitable eye protection: Wear eye/face protection.

#### Skin protection:

Hand protection: NBR (Nitrile rubber)

#### Respiratory protection:

dust formation: Suitable respiratory protection apparatus: P1

#### Other protection measures:

Protective clothing: Wear suitable protective clothing. Boots

General health and safety measures: Wash hands and face before breaks and after work and take a shower if necessary.

#### 8.2.3. Environmental exposure controls

No data available

### 8.3. Additional information

To date, no national critical limit values exist.

Recommended occupational and consumer exposure limit values

Exposure pattern | DNEL workers

Oral n.a.

Dermal 21.3 mg/kg bw/d

Inhalation 37.6 mg/m<sup>3</sup>

Exposure pattern | DNEL General population

Oral 12.8 mg/kg bw/d

Dermal 12.8 mg/kg bw/d

Inhalation 11.1 mg/m<sup>3</sup>

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

#### Appearance

Physical state: solid: crystalline

Colour: colourless , white

Odour: --

#### Safety relevant basis data

| parameter      |                | at °C | Method | Remark                                   |
|----------------|----------------|-------|--------|--|
| pH             | 6 - 7          | 25 °C |        | Dissolved substance quantity:<br>120 g/l |
| Melting point  | ≈ 1,067 °C     |       |        |  |
| Freezing point | not applicable |       |        |  |

| Water solubility                             | ≈ 120 g/l                | 25 °C |        |        |
| Partition coefficient: n-octanol/water       | <i>not applicable</i>    |       |        |        |
| Dynamic viscosity                            | <i>not applicable</i>    |       |        |        |
| Kinematic viscosity                          | <i>not applicable</i>    |       |        |        |

### 9.2. Other information

Non-flammable.  
Not oxidising.  
Not explosive.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Substance is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.2. Chemical stability

Substance is stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.

### 10.3. Possibility of hazardous reactions

When heated to decomposition temperature, it emits toxic fumes of K<sub>2</sub>O and SO<sub>x</sub>.  
Danger of explosion: sodium, magnesium

### 10.4. Conditions to avoid

Keep away from sources of heat (e.g. hot surfaces), sparks and open flames.

### 10.5. Incompatible materials

No data available

### 10.6. Hazardous decomposition products

In case of fire may be liberated: Gases/vapours, harmful Sulphur oxides

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

#### Acute oral toxicity:

Acute toxicity (oral) LD50: > 2000 mg/kg bw (OECD 425)  
Acute toxicity (dermal) LD50: > 2000 mg/kg bw (OECD 402)  
Acute toxicity (inhalative) LC50: > 1200 mg/m<sup>3</sup>

#### Acute dermal toxicity:

Acute toxicity (oral) LD50: > 2000 mg/kg bw (OECD 425)  
Acute toxicity (dermal) LD50: > 2000 mg/kg bw (OECD 402)  
Acute toxicity (inhalative) LC50: > 1200 mg/m<sup>3</sup>

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

**Revision date:** 11-Jan-2018

**Print date:** 11-Jan-2018

**Version:** 3

Page 7/9

## Potassium sulphate

### Acute inhalation toxicity:

Acute toxicity (oral) LD50: > 2000 mg/kg bw (OECD 425)  
Acute toxicity (dermal) LD50: > 2000 mg/kg bw (OECD 402)  
Acute toxicity (inhalative) LC50: > 1200 mg/m<sup>3</sup>

### Skin corrosion/irritation:

No known symptoms to date.

### Respiratory or skin sensitisation:

No known symptoms to date.

### Carcinogenicity:

No known symptoms to date. (OECD 471, 473, 476)  
Oral NOAEL repro/developmental > 1500 mg/kg bw/day (OECD 422)  
No experimental indications of mutagenicity in-vitro exist.

### Additional information:

Repeated dose toxicity (subacute, subchronic, chronic): Oral 28-day NOAEL > 1500 mg/kg bw/day (OECD 422)  
Oral 52-weeks NOAELmale = 256 mg/kg bw/day (OECD 453)

## SECTION 12: Ecological information

### 12.1. Toxicity

#### Aquatic toxicity:

Acute fish toxicity : 96-h LC50: 680 mg/l (EPA)  
Daphnia magna: 48-h EC50: 720 mg/l (EPA)  
Algae toxicity : 18-d EC50: 2700 mg/l (no guideline)

#### Terrestrial toxicity:

Inhibition of microbial activity: EC50: > 100 mg/l (weight of evidence)

### 12.2. Persistence and degradability

#### Abiotic degradation:

Hydrolysis: none

#### Biodegradation:

The methods for determining the biological degradability are not applicable to inorganic substances.

#### Additional information:

Further ecological information: Biodegradation: The methods for determining the biological degradability are not applicable to inorganic substances.

### 12.3. Bioaccumulative potential

#### Partition coefficient: n-octanol/water:

not applicable

#### Accumulation / Evaluation:

Partition coefficient: n-octanol/water not relevant (Product/Substance is inorganic.)  
BCF: No indication of bioaccumulation potential.

### 12.4. Mobility in soil

adsorption coefficient Low

### 12.5. Results of PBT and vPvB assessment

| CAS No.   | Substance name             | Results of PBT and vPvB assessment |
|-----------|----------------------------|------------------------------------|
| 7778-80-5 | potassium sulfate          | —                                  |
|           | Residues, organic          | —                                  |
| 7732-18-5 | water                      | —                                  |
| 7646-93-7 | potassium hydrogensulphate | —                                  |

The study does not need to be conducted because the substance is inorganic. (1907/2006/EC, Annex XIII)

### 12.6. Other adverse effects

Further ecological information: none

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

## Potassium sulphate

### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Do not contaminate ground or surface water. Recycling possible after special treatment. Consult the appropriate local waste disposal expert about waste disposal.

##### 13.1.1. Product/Packaging disposal

Waste codes/waste designations according to EWC/AVV

##### Waste code product:

|          |   |
|----------|---|
| 06 03 14 | solid salts and solutions other than those mentioned in 06 03 11 and 06 03 13 |
|----------|---|

##### Remark:

Evidence for disposal must be provided.

##### Waste code packaging:

|          |  |
|----------|--|
| 15 01 10 | packaging containing residues of or contaminated by dangerous substances |
|----------|--|

##### Remark:

Evidence for disposal must be provided.

#### Waste treatment options

##### Appropriate disposal / Product:

Dispose of waste according to applicable legislation.

##### Appropriate disposal / Package:

Do not remove label until container is thoroughly cleaned. Rinsing with cold or lukewarm water.

#### 13.2. Additional information

No data available

### SECTION 14: Transport information

No dangerous good in sense of these transport regulations.

#### 14.1. UN-No.

not relevant

#### 14.2. UN proper shipping name

not relevant

#### 14.3. Transport hazard class(es)

not relevant

#### 14.4. Packing group

not relevant

#### 14.5. Environmental hazards

not relevant

#### 14.6. Special precautions for user

not relevant

#### 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not classified for this transport way.

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### 15.1.1. EU legislation

No data available

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006 (REACH)

## Potassium sulphate

### 15.1.2. National regulations

 [DE] National regulations

**Water hazard class (WGK)**

**WGK:**

1 - schwach wassergefährdend

**Source:**

AwVS, Nr. 255 (Rigoletto)

### 15.2. Chemical Safety Assessment

For this substance a chemical safety assessment has been carried out.

### 15.3. Additional information

No data available

## SECTION 16: Other information

### 16.1. Indication of changes

No data available

### 16.2. Abbreviations and acronyms

Abbreviations:

CSA: Chemical Safety Assessment

PBT: Substance with persistent, bioaccumulative and toxic properties.

vPvB: Substance with very persistent and very bioaccumulative properties.

MFSU: Manufacture, formulation, supply and use

Rigoletto: Database of the German Federal Environmental Agency, which contains the classification of substances according to their water hazard class (<https://webriigoletto.uba.de>)

### 16.3. Key literature references and sources for data

See annex

### 16.4. Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

**Classification according to Regulation (EC) No 1272/2008 [CLP]:**

The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP].

### 16.5. Relevant R-, H- and EUH-phrases (Number and full text)

| Hazard statements |  |
|-------------------|--|
| H314              | Causes severe skin burns and eye damage. |
| H335              | May cause respiratory irritation.        |

### 16.6. Training advice

No data available

### 16.7. Additional information

Given data sheets are based on our present experiences, however they are no assurance of product properties and do not justify a contractual legal relationship.

## Kaliumsulfat / Potassium sulfate

|   |   |
|---|---|
| <b>1 Exposure scenario (4)</b>  |   |
| <b>Consumer end-use of fertilizers and other products</b>   |   |
| Use descriptors related to the life cycle stage   | SU21<br>PC0(UCN K35000, S35000)/12/27<br>ERC8a/8b/8c/8d/8e/11b  |
| Name of contributing environmental scenario (1) and corresponding ERC   | <ol style="list-style-type: none"> <li>1. Wide dispersive indoor use of processing aids in open systems (ERC8a)</li> <li>2. Wide dispersive indoor use of reactive substances in open systems (ERC8b)</li> <li>3. Wide dispersive indoor use resulting in inclusion into or onto a matrix (ERC8c)</li> <li>4. Wide dispersive outdoor use of processing aids in open systems (ERC8d)</li> <li>5. Wide dispersive outdoor use of reactive substances in open systems (ERC8e)</li> <li>6. Wide dispersive indoor use of long-life articles and materials with high or intended release (including abrasive processing, ERC11b)</li> </ol> |
| List of names of contributing consumer scenarios (2) and corresponding PC and sub-product categories if applicable  | <ol style="list-style-type: none"> <li>1. Construction materials, abrasives – surface treatment (PC0; K35000, S35000)</li> <li>2. Fertilizers (PC12)</li> <li>3. Plant protection products (PC27)</li> </ol>  |
| <b>2.1 Contributing scenario (1) controlling environmental exposure</b>   |   |
| <p>Wide dispersive indoor use of processing aids in open systems (ERC8a), reactive substances in open systems (ERC8b) and of long-life articles and materials with high or intended release (including abrasive processing, ERC11b). Wide dispersive indoor use resulting in inclusion into or onto a matrix (ERC8c). Wide dispersive outdoor use of processing aids in open systems (ERC8d) and of reactive substances in open systems (ERC8e). An environmental assessment has not been performed as the substance does not meet the criteria for being classified as dangerous for the environment.</p>  |   |
| <b>2.2 Contributing scenario (2) Consumer end-use of fertilizers and other products</b>   |   |
| <p>All Product Categories are covered by this contributing scenario as all Operational Conditions (OCs) and Risk Management Measures (RMMs) are identical. Potassium sulphate (with <math>\geq 1\%</math> and <math>&lt; 3\%</math> <math>\text{KHSO}_4</math>) is classified as irritating to eyes (H319 under CLP). Exposure to eye irritating dilutions can occur during consumer use of construction materials and abrasives (PC0), fertilizers (PC12) and plant protection products (PC27) due to dust/splashes. However, it has to be noted that the end products are further diluted which can lead to levels at which no eye irritation will occur.</p> |   |
| <b>Product characteristic</b>   |   |
| Product related conditions, e.g. the concentration of the substance in a mixture, the physical state of that mixture (solid, liquid; if solid: level of dustiness), package design affecting exposure   | Solid, low dustiness<br>Liquid<br>Products containing potassium sulphate containing $\geq 1\%$ or $< 1\%$ $\text{KHSO}_4$   |
| <b>Amounts used</b>   |   |
| Amounts used per event  | Not applicable  |
| <b>Frequency and duration of use/exposure</b>   |   |
| Duration of exposure per event and frequency of events; please note: Tier 1 exposure assessment usually refers to external event exposure, without taking into account the duration and frequency of the event (see Guidance Chapter R.15);   | Not applicable  |
| <b>Human factors not influenced by risk management</b>  |   |

## Kaliumsulfat / Potassium sulfate

|   |  |
|---|--|
| Particular conditions of use, e.g. body parts potentially exposed; population potentially exposed (adults, children)  | Not applicable   |
| <b>Other given operational conditions affecting workers exposure</b>  |  |
| Other operational conditions e.g. room volume, air exchange rate, outdoor or indoor use   | Indoors or outdoors  |
| <b>Conditions and measures related to information and behavioral advice to consumers</b>  |  |
| Safety advice to be communicated to consumers in order to control exposure, e.g. technical instruction, behavioral advice;  | Avoid splashing.   |
| <b>Conditions and measures related to personal protection and hygiene</b>   |  |
| Personal protection, e.g. wearing of gloves, face protection, full body dermal protection, goggles, respirator; specify effectiveness of measure; specify the suitable material for the PPE (where relevant) and advise how long the protective equipment can be used before replacement (if relevant).   | <ol style="list-style-type: none"> <li>1.
